Detailed Action

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on January 26, 2009 has been entered.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-3, 6-8, 15-17, 20-22 and 29-30 are rejected under 35 U.S.C. 101 because the claims are not limited to tangible embodiments since they do not claim physical articles or objects as part of the claims to establish a statutory category. Hence, in order to overcome this *35 USC § 101* rejection, the above claims need to be amended to include only the physical computer media or be associated directly with physical components.

Allowable Subject Matter

Claims 11, 13, 25 and 27 are allowed. The following is an examiner's statement of reasons for allowance: The claims are allowable because no art could be found to teach the claimed link metric system wherein each of the plurality of characteristics defining each link metric is compared in the order of rank.
